

Gluco Control

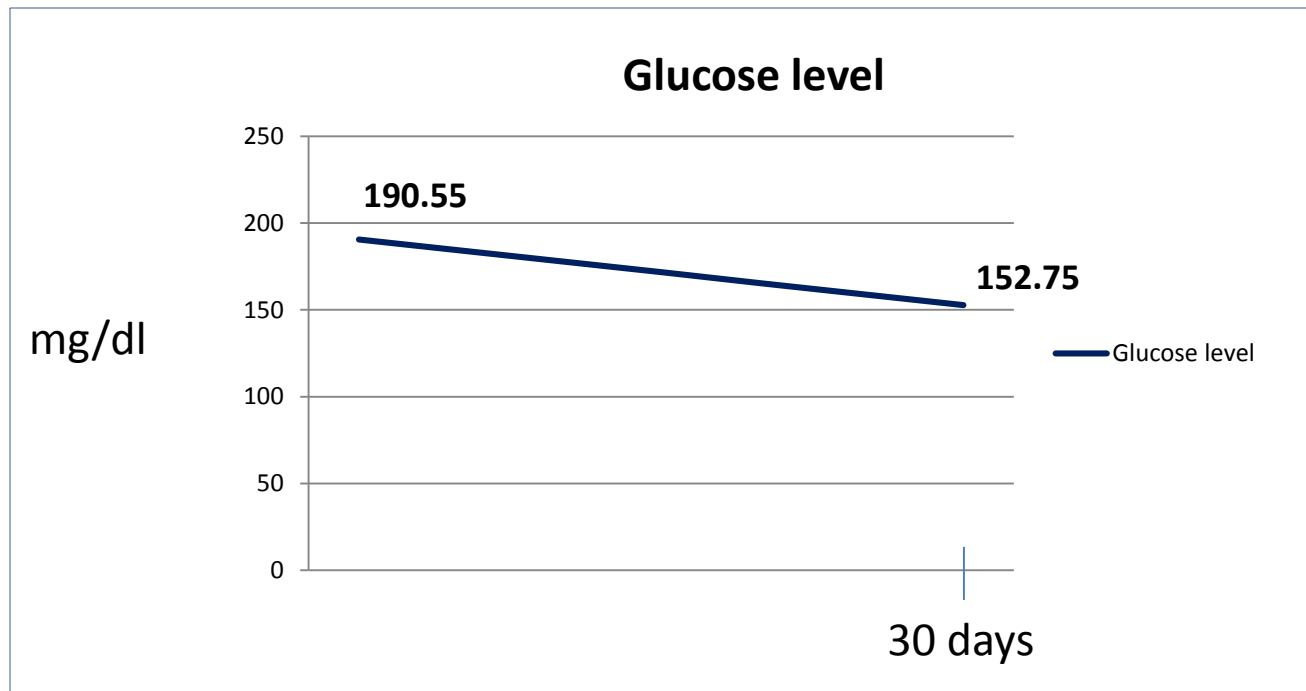

Formula supported by clinical studies

The safe, non toxic, alternative blend of ingredients that help the body maintain healthy insulin levels and reduce glucose in the blood

Gluco Control contains a combination of vitamins, minerals, herbs and amino acids that act synergistically helping to control glucose and insulin in the blood.

Taking 2 tablets per day (one in the morning and one before bed time) for 30 days, clinically showed a significant reduction of blood glucose in subjects with Hypertension and Type II Diabetes.

GLUCO CONTROL

Key Active Ingredients:

GARCINIA CAMBOGIA: Improves the body's metabolism of glucose by not allowing the intestines to absorb it completely after ingestion of meals.

GYMNEMA SYLVESTRE: Increases the production of Beta cells in the pancreas (insulin producers)

WHITE KIDNEY BEAN EXTRACT: Inhibits the conversion of carbohydrates into sugar so that the digestive system expulses the partially digested carbohydrate molecules out of the body.

GREEN TEA: Increases the metabolism of carbohydrates and helps to block the absorption of glucose into the blood stream.

GLUCO CONTROL

Clinical Study Reference

(A vitamin, mineral, herb dietary supplement effect on blood glucose in uncontrolled type II diabetic subjects.
